

INDIVIDUAL STUDIES COURSE PETITION

(File a separate petition for each Individual Studies Course)

This form is to be completed, approved and filed with the department, college, committee or division office prior to the deadline established by the sponsoring agency but no later than the last day to enroll in classes for the term in which the course is to be taken. Because petitions may not be reviewed and approved immediately, it is generally a good idea to submit petitions a minimum of a week in advance of the enrollment deadline. **Undeclared majors may not take more than 7 credits of special approval courses per quarter. Students who are declared in a major may only take more than 7 credits of special approval courses per quarter with authorization from their department.** (Authorization is not required if special approval courses are part of a curriculum approved by CEP, for example the Community Studies major.) The Individual Studies Course class number will be issued by the sponsoring agency at the time the petition is approved. **Completion of enrollment procedures for the course is your responsibility.**
